

Review of Past CJK Collaboration Effort

- APAN (twice a year; 33rd in Chianmai in 2012)
- AsiaFI (twice a year; 5th in Kyoto in 2012)
- PlanetLab CJK from June 2008 by Maoke Chen, Sue Moon, and Akihiro Nakao
 - 1st PlanetLab BoF at APAN 2004 in Cairns
- Joint workshop CAIDA-WIDE-CASFI
- ACM SIGOPS APSys

Goals of PlanetLab CJK

- Why do we want a PlanetLab CJK?
 - A single country not representative
 - Larger community involvement brings in
 - Greater coverage
 - Expanded base of technical expertise
 - Scalable solution
 - Funding

Factors That Weigh

- Integrate goals of individual country's PL
 - $C+J+K = CJK$ or $C/J/K$?
- Funding
 - Leverage each CJK effort
- Operational O/H
 - PLC Sys Admin?
- Sharing/participation policy
 - Same or different from PLC

Our Roadmap

- Regular Workshop
 - To report on progress
- PlanetLab CJK up by 2009/2010?

CAIDA-WIDE-CASFI

- 4th workshop co-located w/ CoNEXT 2011 in Tokyo this December
- Outcome
 - Strong ties
 - Technical collaboration w/ WIDE

ACM SIGOPS APSys

- 2010 co-located with SIGCOMM in India
- 2011 in Shanghai
- 2012 in Seoul
- 2013 likely to be in Beijing
- 2014?

What I have learned

- No money = no collaboration
 - Strong will/intention does not matter when pressed for time and deliverables
- Pros and cons for regional conferences
 - + Networking opportunity
 - Yet-another-conference/workshop
- Keep the events engaging and fun for me and students
